Stacks Database Listings

Stacks Database Listings provide a new take on A-Z Listings. The listings page includes custom category and A-Z sort options, a dynamic visual slider, featured resources, title search and more.

Import from LibGuides as well!

The Search Box Redefined to Meet the Expectations of Today's User

Stacks Bento Search allows the library to customize search results in blocks of content that can be easily configured. Search multiple sources and content simultaneously and group the results according to your preference.
