- Branded as your library in both App stores
- Optimal performance on all modern iOS and Android devices
  - iOS 8.3 and up
  - Android 4.1 and up
- Integrate EBSCO Discovery Service™ (EDS) and connect users to the right content with a highly configurable search
- Real time, integrated search results
  - ILS integrated catalog search
  - Easily connect to third-party tools and data sets

Focus on Creating an Optimal Experience

Stacks Mobile is a Software-as-a-Service (SaaS). That means we take care of the maintenance behind the scenes so you can focus on creating a great user experience.

- No surprise costs make it easy to budget
- Never worry about expensive upgrades
- Never worry about security issues or risks
- Continuous deployment | 99.9% uptime guarantee
- Secure cloud hosting | backups, maintenance, support and more
- We submit to the stores on your behalf

Stacks Mobile Search Integrations

Stacks Mobile is the only app to offer seamless, turnkey EBSCO Discovery Service™ (EDS) integration.

- Surface content and resources in just one click
- Get relevant results every time

More Integrations

- Extensive ILS integrations
- Authentication: OpenAthens, ILS providers and more
- Cover Art: Content Cafe, Syndetics, ChiliFresh and more
- Reviews: ChiliFresh, Baker & Taylor
- Recommendations: NoveList Select
Additional Features Available when Paired with Web Platform

When paired with the Stacks web platform, mobile app content is easy to manage and automatically updated when you make changes to your website. See submissions from the app in your Stacks Dashboard in real time.

- Register for programs and events
- Book rooms
- Complete and submit surveys
- Access databases
- Site aesthetics match your Stacks website

Easy Forms

- Users can submit surveys or forms created in the Stacks CMS using the robust Easy Forms tool
- Submissions are managed the in the Stacks Dashboard

Database Listings at Your Fingertips

Listing Databases on your Stacks Mobile app provides your users access to valuable resources and materials.

- Listings managed from your Stacks Dashboard
- Integrate with OpenAthens for a powerful personalized experience with ALL of your databases
Room Bookings Made Simple

Managing access to rooms is a breeze with Stacks Room Bookings.

- Manage controlled vocabularies to filter and manage rooms
- Accept online and in-app booking without conflicts
- Manage email templates for automated confirmations, reminders and more

More Events, Less Management

Stacks Events Management lets you take complete control of events. Navigating upcoming events is as easy for your students and faculty as it is for you to manage them. Leverage built-in roles and permissions to accommodate collaboration by all types of employees and personnel.

Create repeating events to save time, specify publication dates to control when students and faculty can view events and their details, manage registrations by setting limits and tracking attendance, then generate reports on attendance all from the comfort of the Stacks Dashboard.

- Create recurring events with exceptions
- Manage controlled vocabularies to filter and manage events
- Accept online and in-app event registrations with limits
- Schedule, publish and set expiration dates
